

IN THE CLAIMS

1. (Previously Presented) Pharmaceutical agent for the treatment or prophylaxis of cancer, characterized in that it consists essentially of strontium, at least one amino acid selected from the group consisting of arginine, serine, asparagine, glycine, glutamine, lysine, at least one mineral element selected from the group consisting of chromium, tin, vanadium and wolfram, and vitamins.
2. (Previously Presented) Pharmaceutical agent according to claim 1, characterized in that strontium is present in the form of strontium ions.
3. (Previously Presented) Pharmaceutical agent according to claim 1, characterized in that strontium is present in the form of strontium chloride or strontium oxide.
4. (Currently Amended) Pharmaceutical agent according to ~~any one of claims~~ claim 1 =3, characterized in that it comprises 0.1-3 mg strontium, at least one L amino acid selected from the group consisting of arginine, serine, asparagine, glycine, glutamine, lysine, in an amount of 2-5 g of each of the chosen amino acids, at least one mineral element selected from the group consisting of chromium, tin, vanadium and wolfram, in an amount of 1-3 mg of each of the chosen mineral elements, the amounts being calculated as daily intake.
5. (Currently Amended) Pharmaceutical agent according to ~~any one of claims~~ claim 1 =4, characterized in that it comprises strontium, serine and vanadium.
6. (Currently Amended) Pharmaceutical agent according to ~~any one of claims~~ claim 1 =4,

characterized in that it comprises arginine and vanadium.

7. (Currently Amended) Pharmaceutical agent according to ~~any one of claims~~ claim 1 =4, characterized in that it comprises strontium and isoleucin and at least one mineral element selected from the group consisting of chromium, tin, vanadium, selenium, and wolfram.

8. (Currently Amended) Pharmaceutical agent according to ~~any one of claims~~ claim 1 =7, characterized in that it is in the form of a food additive or a food ingredient.

9. (Original) Pharmaceutical agent according to claim 8, characterized in that it is in the form of a dairy product, preferably a yoghurt.

10. (Currently Amended) Use of a pharmaceutical agent according to ~~any one of claims~~ claim 1 =7 for the manufacture of an agent for treatment or prophylaxis of cancer.
